Discussion with QAS Bob Wax on claims 20-23 regarding partial enablement rejection. It is not necessary, because the 102/103a art rejection enough, and as anticoagulant, the composition can be used for prophylatic treatment of thrombosis and infarction, if supported by state-of0art.	03/17/200	YC
Discussion with QAS Jean Witz on allow prophylatic agent (preventing) thrombosis and related diseases. It should not reject "preventing a disease" if state-of-art support such claims. After google saerch, it was found thousands references on anticoagulant used for preventing thrombosis. Therefore, the claimed composition with inted to use is not rejected.	03/19/2008	YC
